

Product: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon

Date of last revision 07/11/2023	Number of last revision: 1	SDS N° 1 15	Page 1 of 6
--	--------------------------------------	-----------------------	-----------------------

1. Identification

Product identifier: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon**Recommended use of the chemical:** Clarification and regeneration of oils**Identification Code:** 0023**Supplier's name:** MINERAÇÃO CURIMBABA**Address:** Rodovia Poços de Caldas/Caldas, Km 10 – Usina Campo do Meio**Complement:** Poços de Caldas/MG – Brasil CEP 37701-970**Supplier's phone number:** (35) 2107-8000**Emergency phone number:** (35) 99839-7449

2. Hazard identification

Classification of the substance or mixture: It is not classified as hazardous according to the relevant criteria of the HSNO. **Precautionary recommendations:** Wash your hands after handling the product. It is recommended to use appropriate PPE when handling the product. Get product information before handling. In case of emergency, proceed as indicated by SDS.

Other information: Not available.

3. Composition/Information on ingredients

Product Type: Substance**Common chemical name or technical name:** Bauxite, calcined**Synonym:** Bauxite, sintered; Bauxite (Al₂O₃.xH₂O), calcined**CAS N°:** 92797-42-7**This substance does not contain impurities that contribute to its hazard.**

4. First-aid measures

First-aid measures

- **Inhalation:** Remove the victim to fresh air and keep at rest in a comfortable position for breathing. Get medical attention, if symptoms appear. Take this SDS.
- **Skin contact:** Gently wash the contaminated skin with plenty of water. Wash contaminated clothing thoroughly with water before removing it or wear gloves. Wash clothing and shoes before reuse. Get medical attention, if symptoms appear. Take this SDS.
- **Eye contact:** Rinse carefully with water for various minutes. Remove contact lenses, if present and easy to do. In case of eye irritation, get medical attention. Take this SDS.
- **Ingestion:** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. If swallowed, consult a doctor. Take this SDS.

Most important symptoms/effects, acute and delayed: Not classified as hazardous in accordance with the relevant criteria of the HSNO.**Indication of immediate medical attention and special treatment:** Symptomatic treatment

Product: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon

Date of last revision 07/11/2023	Number of last revision: 1	SDS N° 15	Page 2 of 6
--	--------------------------------------	---------------------	-----------------------

5. Fire-fighting measures

Suitable extinguishing media: Use water spray, dry chemical, or carbon dioxide.

Unsuitable extinguishing media: Do not use direct water jet.

Specific hazards arising from the chemical: Non-flammable product. The combustion of the chemical or its containers may form toxic and irritating gases such as carbon monoxide and dioxide.

Special protective actions for fire-fighters: Self-contained breathing apparatus (SCBA) and protective equipment is recommended. Containers and tanks involved in the fire should be cooled with water mist.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

- **For non-emergency personnel:** Preemptively isolate from ignition sources. Do not smoke. Avoid contact with the product. If necessary, use personal protective equipment as described in section 8.
- **For emergency responders:** Evacuate the area. Wear full protective equipment (safety glasses and gloves, uniform or apron, closed shoes, and respiratory mask with filters against particulate material).
Isolate the leakage preventively from ignition sources.

Environmental precautions: Prevent entry into waterways, sewers, basements, or confined areas.

Methods and materials for containment: Evacuate the area. Keep away unauthorized personnel. Stop the spill, if it is safe.

Area isolation: As an immediate precautionary measure, isolate spill or leak area in all directions, at least, 50 meters (164,02 feet)

Methods and materials for cleaning up: Spilled material can leave the floor slippery. Collect the product with a clean shovel or another instrument that does not disperse the product. Put the material in suitable and previously identified containers and remove them to a safe place. For disposal, proceed according to the local legislation as described in section 13.

7. Handling and storage

Precautions for safe handling

- **Prevention of workers exposure:** Handle the product following established safety standards and use the PPE indicated in section 8. Handle in a ventilated area or with a general ventilation/local exhaust system. Avoid formation of particles and mists. Avoid exposure to the product.
- **Fire and explosion:** The product is not expected to present a fire or explosion hazard. Keep ignition sources away - No smoking.
- **Precautions for safe handling:** Handle the product according to the established safety rules and use the PPE indicated in section 8. Avoid contact with skin and eyes.
- **Hygiene measures**
- **Suitable:** Wash hands et al thoroughly after handling and before eating, drinking, or going to the bathroom. Contaminated clothing must be changed and washed before re-use.

Product: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon

Date of last revision 07/11/2023	Number of last revision: 1	SDS N° 1 15	Page 3 of 6
--	--------------------------------------	-----------------------	-----------------------

- **Unsuitable:** Eating, drinking or smoking in the workplace.

Conditions for safe storage

- **Conditions for safe storage:** Store in a cool, dry, well-ventilated place at room temperature. Keep container tightly closed. Avoid high temperatures. Ensure the recommended minimum distances between stacks/pallets. Respect the maximum stacking of three pallets or big bags. It is not necessary to add stabilizers and antioxidants to ensure product durability.
- **Conditions to avoid including incompatibilities:** Not known incompatible materials.
- **Packaging materials**
- **Suitable:** Polypropylene big bags or cardboard bags.
- **Unsuitable:** Not available

Other information: Not available

8. Exposure controls/personal protection

Control parameters

- **Occupational exposure limits:** This product has no occupational exposure limits established according to OSHA, ACGIH, or NIOSH.
- **Biological indicators values:** Not available
- **Other limits and values:** Not available

Appropriate engineering controls: Ensure direct mechanical ventilation and exhaust system to the outside environment. These measures help reducing exposure to the product and maintaining atmospheric concentrations, of the constituents of the product, below indicated occupational exposure limits. Keep an emergency shower and eyewash station near the workplace.

Individual protection measures, such as personal protective equipment

- **Eye/face protection:** Safety glasses with side protection.
- **Skin protection:** Wear protective clothing (uniform or apron) and closed shoes.
- **Respiratory protection:** The use respiratory protective mask with a filter against particulate material (e.g. P2 or P3) is recommended.
- **Hands protection:** Wear protective gloves - e.g. nitrile rubber, PVC, rubber, or neoprene.
- **Thermal hazards:** It does not present thermal hazards.

Other information: Not available

9. Physical and chemical properties

- **Appearance**
Physical state: Solid; **Form:** Angular grains; **Color:** Red
- **Odour:** Not available
- **Odour threshold:** Not available
- **pH:** Not available

Product: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon

Date of last revision 07/11/2023	Number of last revision: 1	SDS N° 15	Page 4 of 6
--	--------------------------------------	---------------------	-----------------------

- **Melting point/freezing point:** Not available
- **Initial boiling point:** Not available
- **Boiling range:** Not available
- **Flash point:** Not available
- **Evaporation rate:** Not available
- **Flammability (solid, gas):** Non-flammable
- **Lower flammability or explosive limits:** Not available
- **Upper flammability or explosive limits:** Not available
- **Vapour pressure:** Not available
- **Vapour density:** Not available
- **Relative density:** Not available
- **Solubility(ies):** Insoluble in water
- **Partition coefficient: n-octanol/water:** Not available
- **Auto-ignition temperature:** Not available
- **Decomposition temperature:** Not available
- **Viscosity:** Not available
- **Additional information:** Bulk density: 0.75 - 1.05 g/cm³

10. Stability and reactivity

Chemical stability: Stable product under normal conditions of temperature and pressure.

Reactivity: Under normal conditions of use, storage and transportation material should be non-reactive

Possibility of hazardous reactions: There are not known hazardous reactions with the product.

Conditions to avoid: High temperatures.

Incompatible materials: There are not known incompatible materials.

Hazardous decomposition products: None known.

11. Toxicological information

Acute toxicity: The product has not been classified for this hazard under HSNO criteria.

Skin corrosion/irritation: The product has not been classified for this hazard under HSNO criteria.

Serious eye damage/irritation: The product has not been classified for this hazard under HSNO criteria.

Respiratory or skin sensitization: The product has not been classified for this hazard under HSNO criteria.

Germ cell mutagenicity: The product has not been classified for this hazard under HSNO criteria.

Carcinogenicity: The product has not been classified for this hazard under HSNO criteria.

Reproductive toxicity: The product has not been classified for this hazard under HSNO criteria.

STOT-single exposure: The product has not been classified for this hazard under HSNO criteria.

STOT-repeated exposure: The product has not been classified for this hazard under HSNO criteria.

Aspiration hazard: The product has not been classified for this hazard under HSNO criteria.

Additional information: Not available.

Product: Córindon Artificial Ativado Especial; Special Activated Artificial Corindon

Date of last revision 07/11/2023	Number of last revision: 1	SDS Nº 1 15	Page 5 of 6
--	--------------------------------------	-----------------------	-----------------------

12. Ecological information

Toxicity: The product has not been classified for this hazard under GHS criteria. Bauxite, calcined (CAS 92797-42-7) - Fish - LC50 (Scophthalmus maximus juvenile /96h): >100 mg/L. Diatoms - EC50 (Phaeodactylum tricornutum /72h): > 100 mg/L.

Persistence and degradability: Due to the absence of data, it is expected that the product presents persistence, and it is not considered rapidly degradable.

Bio accumulative potential: Due to the absence of data, it is not expected that the product presents bio accumulative potential in aquatic organisms.

Mobility in soil: Solid product, low soil mobility is expected.

Other adverse effects: None known.

13. Disposal considerations

Disposal methods

- **Product:** Keep the product remains in its original packing and properly closed. Dispose of contents/container in accordance with local/state regulations.
- **Used package:** Do not reuse empty containers. Dispose of in accordance with local/state regulations.

14. Transport information

National and international regulations:

Land Transport:

Technical name: BAUXITE, CALCINED

Additional information: The characteristics of the product does not meet the official criteria of dangerous goods for purposes of transportation.

Additional Regulation: DOT - U.S. DEPARTMENT OF TRANSPORTATION

15. Regulatory information

Safety, health and environmental regulations specific for the product:

New Zealand – HSNO - Hazardous Substances and New Organisms (Hazardous Substances Assessments) Amendment Act 2022. - Legislation Act 2012: repealed, on 28 October 2021, by section 10 of the Legislation (Repeals and Amendments) Act 2019 (2019 No 59) - Ministry of Justice and the Parliamentary Counsel Office
<https://legislation.govt.nz/act/public/2022/0057/latest/LMS522322.html>

EPA Controls - Part 6 heading: amended, on 1 December 2017, by section 54 of the Hazardous Substances and New Organisms Amendment Act 2015 (2015 No 72) - Hazard classification system.
<https://www.legislation.govt.nz/act/public/1996/0030/latest/DLM384463.html>.

--	--------------------------------------	---------------------	-----------------------

16. Other information

Other information that does not belong in other sections:

This Safety Data Sheet (SDS) has been prepared based on current knowledge about chemicals and provides information about protection, safety, health and environment. It is warned that any chemical handling requires prior knowledge of its hazards by the user. The user company is responsible to promote the training of its employees about the potential product risks.
